

Three Core AI LLC

Capabilities Statement

Three Core AI is a SAM.gov-registered small business delivering AI software development, digital modernization, and secure cloud engineering for government agencies and prime contractors. We build production-ready AI workflows, data platforms, and modern web applications—designed with security, reliability, and measurable outcomes in mind.

Core Competencies

- **AI/LLM applications & workflow automation (agents, RAG, summarization)**
- **Data ingestion, integration & APIs (SAM.gov and state procurement sources)**
- **Analytics dashboards, reporting & alerting (role-based access)**
- **Cloud-native application development (secure web apps & services)**
- **DevSecOps & CI/CD (secure deployment, monitoring)**
- **Legacy modernization & system rebuilding**

Experience

1. **Apaman (Real Estate Group, Japan)** — AI-enabled workflows and localized (EN/JA) web experiences to support customer loyalty, operations and internal teams.
2. **BidSieve (GovCon Contract Intelligence Platform)** — Ingests public opportunities (incl. SAM.gov), applies relevance AI scoring/summarization, and delivers curated alerts and dashboards.
3. **LeadDuo ServiceHub & Forms (Commercial SaaS)** — Multi-tenant booking, job tracking, invoicing, Stripe Connect payments, AI Agent, and automated follow-up (email/SMS).
4. **Auction.com** — **Platform turnaround:** Led rebuild of mission-critical platform; improved stability, performance, and release cadence.
5. **Prosper.com** — **Cloud modernization (SOA):** Led rebuild from monolith to SOA and migrated to modern cloud systems; standardized environments, automated deployments, and strengthened audit-ready controls.

Applies the same production-grade discipline (security-first, audit-friendly logging, least privilege access, repeatable deployments) to public-sector and regulated environments.
